

I am 100% in support of an addendum to part 97 that would in effect invalidate an amateurs application for any given vanity callsign if the commision receives more than one application for that callsign. The sprit of this ammendmentment would be to reduce the number of excess applications that take up commision time and resources and provide a penalty for those that abuse the system and slow it down for the rest of us.

Respectfully submitted,
Jay Urish
